Part 1

Note: Right up front, this guide will focus on corrupting Nicole. The full Marylin content will not be present due to the Bowling Alley scene, and not being on the NTR path. Since the corruption path has the most content, it's what we will be taking. Most choices will be forced in this guide (meaning if you don't pick what the guide says I am not responsible). The guide will also be NTR free, there is entirely too much content to cover both, so I went with what most of you would want. If you want the love path, you can always edit your save with save editor online or in the console for Renpy if you know how when you get to the end of Part 7, but you will be on your own. https://www.saveeditonline.com/
