Game Plan

The guide will list almost every set of choices that are presented to you in-game with its corresponding effect (if it has one). Just keep an eye on the following tags:

(Pacifism)	Selecting those choices will result the [MC] in being more Passive / Submissive.
(Perversion)	Selecting those choices will result the [MC] in being more Aggressive / Dominant.
(Sispervbro)	Hidden Stat to track how perverted Alice is.
[Trigger]	Hidden Trigger that will affect future scenes and dialogues.
[Image(s): #]	I'm only listing UNIQUE images that can't be obtained from the default story line.

PRO Tip: Search for the missing image by; "**Ctrl + F**" then enter "**#**Number" (Obtained from gallery)

Last tip before we start, choices in **BOLD** are usually those who are tagged with one of the above tags. Choices with normal text or those without tags next to it, you can simply ignore. Enjoy!
