Strategy

This guide will do it's utmost to make sure your journey through the game as painless as possible. I aim to give you the best decisions for each variable and let you make your own wherever possible.

WARNING! – THIS GAME HAS ADULT CONTENT, PLEASE MAKE SURE YOU ARE OF LEGAL AGE IN YOUR COUNTRY.

Stat Points

[CharacterName/Af] Affection Points gained/lost per character.

[CharacterName/Dom] Dominance Points gained/lost per character.

[CharacterName/Sub] Submission Points gained/lost per character.

[Event Trigger] Triggers that affect dialogues, scenes and choices.

Note: I will be using the variables Sis and SF as listed in the script as to not confuse myself. Default names will otherwise be used.

Note 1: When I say **If** and then follow it with something it means if obtained it or NOT.

Note 2: When I say **Then** it will be followed by what you receive.

Note 3: When I say **Else** it's what you got if you didn't meet those conditions.
