

## Diapered Denied and Milked

By ChampTehOtter (<https://champtehotter.com/>)

### Description

No more grown up games for you! It's time for you to go back into diapers and get prostate milked so you can be edged to a whimpering mess and drained before you can get too excited. You're so cute when you're pent up and fussy! Better get used to your new 'age appropriate' routine! - Idea from J

### Intro

This file is intended for adults 18 or older, so if you are a minor, please stop the recording and go elsewhere.

You are listening to another hypnosis file from Champ. If you are here with me, then you must want to be hypnotized. That means you are ready to spend some time in trance, listen to my words, and accept all that you hear.

I cannot guarantee that you will go into trance as you listen to this file, but even if you don't immediately go into trance, it's okay to pretend. Sometimes, as you are pretending to go into trance, your subconscious will follow suit and before you know it, you may find you have already entered a state of trance without even realizing it.

Whether you're here because you chose to be here, or you're here because someone sent you to be put in your place... you're here.. Because you need to be here... you're here... to make sure you're being the good baby you're meant to be. That's fine. Being an adult and making decisions is difficult. But you're not ready to make decisions and be an adult, are you? No, all you are ready to do is be a good little one while grownups make all the hard decisions for you. All you are ready to do is listen to my words and follow along as I guide you into a nice relaxing trance... a nice relaxing trance where you can learn how to be a good little baby for grownups... Do you understand, little one? Good. very good!

Before we begin, we have to make sure baby is ready to go into trance. Let's go through the list. Have you gone all day without making stickies? Are you wearing your diapers or do you have one handy nearby? How about a prostate massager, if you're allowed and able to use one? Are you secured and safe so that you can't fall down or be interrupted? Have you eliminated any grown-up distractions such as cell phones and messaging apps that could interrupt your time with Champ? Are you wearing your hypno headphones for maximum effectiveness? Be a good baby and pause the recording if you have to, until you are sure you're ready to listen to my words and go into a nice deep trance. Are you ready to be hypnotized? Good.

## **Induction**

Now that you're ready to be hypnotized, just close your eyes, and begin counting down from 10. And as you follow each number down, you can trace it in your mind. Imagine there is a finger drawing out those numbers over and over. And as you follow the path, you can feel yourself sinking deeper into trance with each number. Twice as deep with every single number.

10. A nice light trance... a 1. And a 0. Going over and over. Waiting to go deeper. 9. A little deeper now, as we circle the 9 around and around. 8 Deeper still, tracing two circles over and over. Around and around. Deeper. And deeper. 7, Going right. And dropping down into trance. Nice deep trance. There you go. Very good. 6. The circle is on the bottom now, spiraling down down down to the deepest depths of your conscious mind. 5. two straight lines floating above your conscious mind, and a hook dipping down below the surface, right into your subconscious mind. 4. Tracing a line that bounces around deeper and deeper into the subconscious, the place that accepts all that you hear as true. 3. Two curves preparing you to be a good baby for grown ups as you fall down deeper to 2. The curve hits the bottom of your subconscious and rolls along the floor. 1. Dropping straight down that floor to circle 0. Circling around and around a hole in your subconscious. The hole becomes bigger and bigger as the circle widens. Bigger and bigger until you can walk right through it.

## **Body**

And there on the other side of the door to trance, there you are. That's right, little one. And you can knock on the door. KNOCK KNOCK KNOCK. And you can notice that the door is already slightly open. You can just place your hand on the door and push. And the door falls open so you can walk through. And as you look around on the other side of that door, you can see that nice familiar room. Yes, a comfortable room that reminds you of happy memories of being little. It could be a nursery. Or maybe a living room. Maybe a bedroom. Or even a daycare room. Any room that helps you feel so little. Reminds you what a good little baby you are. You can smell the familiar babyish smells that you love so much. You can feel that comfort of being back here, where you know you are meant to be. And you can see your grownup waiting there for you with a big big smile.

Welcome back, little one. I'm so happy to see you. And I have something to tell you. And you know that whatever I tell you is true, because you wish it to be so. That is why you are here. Why else would you be here, listening to my words? You are here because you want to learn the truth. And the truth is...

It's time for you to go back into diapers. That's right, it's time for you to go back into diapers. No more grown-up games. No more pretending. And definitely no more grown up undies. Because it's time for you to go back into diapers, because good babies wear their diapers. And you want to be a good baby for grownups. That's right, you want to be a good baby for grownups. And from now on, a good baby is what you are.

Yes, that's right, from now on, you're just a toddler. And you will do as all toddlers do, including using diapers, drinking from bottles, eating in a high chair, and having a babysitter. Anyone older than a toddler is now an adult to you. And you know that good babies listen to adults, because adults make the rules. And you want to be a good baby.

Even if you don't want to be a toddler. Even if you think you're too big, and you feel embarrassed and ashamed that you can't have your adult life back, you know you can't avoid it. This is just how it has to be. You are just not ready for adult responsibilities, and that is why you are here with me. Because you need to be put back into diapers and start over as a toddler.

And that's why you're here with me again, ready to listen and accept all that you hear. Repeat after me:

I'm a good baby for grownups... I'm a good baby for grownups... I'm a good baby for grownups...

Yes you are! And there's a lot of power in words, a lot of power in admitting that to yourself... Now be a good baby and repeat after me...

I belong in diapers... I belong in diapers... That's right... one more time... I belong in diapers...

Now say, I deserve to be in diapers... Yes, that's it, say, I deserve to be in diapers... I deserve to be in diapers...

Yes you do... and you're so good at using your words, little one!

Now say, please put me back in diapers... that's right... say please put me back in diapers... Come on, you can beg better than that... one more time, and really sell it now, say please put me back in diapers...

Aww, you're so good at asking for what you need. To be put back in thick... comfy... crinkly... diapers... and that's just what's going to happen...

And as you lie there... in a deep deep trance... you know that if you need to... you can get up... and grab a diaper if you need to... grab that diaper and put it on as you follow along... while you continue to listen to my words... in a nice deep trance...

And whether you are diapered now or not, you can just imagine how it feels to be put back in diapers... after a break of any length...

imagine laying down... and waiting for your diaper... anticipating what's going to happen...

And you can look at the diaper that I've grabbed just for you... think about how it will feel when it's on you...

As I fluff the diaper... [crinkle] you may begin to notice... a familiar babyish scent wafting your way... yes... all the sights... and sounds... and smells... that go along with diapers...

They're very familiar to you... and they're about to be more familiar...

And you can think about how it feels... to know... that you're being put back in diapers... and this time it's for good...

And here we are... a nice... thick... diaper... just for you... imagine the feeling... of that diaper going under your butt... that's it... feeling that thickness already... before I've even pulled it up...

And now to decide what I'm going to put on you... diaper cream... or diaper gel... diaper ointment... or diaper powder... hmm... which one will it be? Ah, here we go... the most babyish option of all... time to rub it all in... that's it... now don't get *too* excited... I already told you no more pretending you're grown up...

I can tell you're squirmy, aren't you? Well, that's good. You should be like this all the time.... Because you're not ready to have adulty times... and you probably never will be... now let's get that diaper on you snug and secure before you have an accident, lil one...

Up it goes! And now to secure it... One... two... three... four... [Crinkle] There we go [pat pat pat] Doesn't that feel so much better?

That's much better... how does it feel to have a nice thick diaper between your legs? Around your butt? Your waist? [crinkletugs] How does it feel to know that this is your new normal?

Always in diapers... And no more naughty grownup fun time... You're going to be so pent up, little one... You probably already are! Imagine that feeling of being pent up... growing and growing... getting all fussy... until the grownups notice... and tease you...

Aww... is the little one all squirmy? Does somebody need to make stickies in their diapers?

Get on all fours now... allow me to pull back your diaper... you know what's coming next... that's right.. It's time to get prostate milked. And as you wait in anticipation... you can notice how that makes you feel...

You hear the click of the lube bottle... [click] I put some lube on my finger... and reach down... allow yourself to feel that cool lube... being spread on your pucker... there we go...there we go... that's the way... much better...

And my thumb begins to slide right in..., Right into that warm tight hole. No touching the front now... just allow yourself to feel... that nice prostate massage...

That feeling of the thumb.... Pressing against that button inside your prostate or g spot... feels funny... but nowhere near enough to get off... no, it's a different feeling... This is a purely necessary and routine procedure.... Don't worry... you'll be drained before you can get too excited. [It's so cute how you whimper... how you beg for an orgasm that will never come...]

[Subliminals]

And as the massage continues... you can feel the feeling... almost like you're about to pee... building up... building up... until you begin to drip... into your diaper... draining that prostate... feeling that thick warm fluid... dripping out... There we go... that's it... draining all that sticky stuff away... right into your diaper...

[Subliminals]

There we go... looks like we're all done here!

Aww, what's the matter? Didn't get to make big cummies? Good. You're so cute when you're pent up and fussy!

Better get used to your new 'age appropriate' routine, little one. You're going to be doing this on a regular basis...And whenever you feel all pent up and squirmy, you can listen again to ensure that you are properly diapered, denied, and milked like a good diaper butt.

**End**

On the count of five, you will awaken from your nice relaxing trance feeling alert and refreshed. One ...beginning to regain your normal awareness...Two... becoming more aware of your body, lying in a relaxed position... Three... becoming more aware of your breathing, and where you are... four... feeling so, so good as you finally come back on... 5. All the way back, refreshed, and alert. I hope you enjoyed your time with me, and I hope you return to listen again soon. Goodbye now.
