A method by using Keyword Item Distributor[SE Only]

Requirements

KID - https://www.nexusmods.com/skyrimspecialedition/mods/55728

Notepad++ - To edit ini

This is more an intrinsic way. You don't need to use Xedit with this method. Easy to edit at anytime!

This method, however, is only applied to SE/AE users only.

Get Keyword Item Distributor.

Play Skyrim and drop any items to which you want to add keywords.

Click it and you will see its form ID

You need the Base Form ID not the Ref Form ID. Do not confuse the two.

The plugin is eslfied so first 5 letters should be ignored.

Be ware that eslfied forms have first 5 letters as header unlike normal esp plugins.

That means the form ID we are looking for is 000863.

It's not FE0B0863. FE0B0 should be ignored!

If you look at the plugin index, you can see the plugin index starts with FE:OBO

Name	Flags	Priority	Mod Index	
BHUNP NiseDovaArmor.esp	9 0	353		FE:OBO

Once you finished with finding form ID, you need to give it SLA keywords.

You can download a sample ini as a reference.

Copy the sample INI and rename it according to the plugin name that the armor belongs to like below.

BHUNP NiseDova.esp BHUNP NiseDova_KID.ini

Open the ini and then add any keywords you want in the following format.

Keyword = KeywordName|OxformID~PluginName.esp

For more details, please read the description on the mod page.

A method by using Xedit

If you want some diversities, put these keywords to armor added by mods.

Make sure your mod plugin have SexlabAroused.esm as its Master plugin.

If it's not, add it.

And then find the item that you want to change.

You may see keywords already registered if you are using my bodyslides uploaded on my blog.

Check the folder if there's an extra plugin.

If this is your first time, I' II simply add one keyword `EroticArmor.`

Multiple supportive keywords are allowed to be added as many as you want.

Just make sure that only one main cuirass keyword is registered for each cuirass.

Close Tes5edit with save it. Done!!

P.S – This whole process may not be necessary. If you think it's hard to understand, just use Naked Armor feature on Sexlab Aroused MCM. Of course, it's not a perfect solution.
