HIKARI

A woman with long dark hair, wearing a light-colored bikini with purple and pink accents, stands behind a weathered wooden fence. She is looking down and to the side, with her hand near her face. The background shows a blue sky with white clouds.

The princess Sasayaki had crossed the sea of stars to find help with the name of Hikari on her lips.

While claiming noble motivations, I was certain she was hiding the truth of her voyage. However lacking a more productive alternative to her most convincing advances, I acquiesced and proceeded to accompany her.

She had brought back to me an old friend, the Shaddaow my master had once intended as my life mate... thought dead all these years. Rather trapped in a purgatory of fanatical exploitation and abuse. Whom in turn promised to excercise great violence upon her.

First stop would be the graveyard of all I once held dear. The spot where I saw my master, my love, and my future die. The resting spot for my masters Vector... now, I suppose... my Vector.

Still, the Lady Sasa was pleasant enough. In another life time...

No. She's wants something.

HIKARI

HIKARI

Shhhhh...
Calm down now.

...sob ... sob

It's ok silly head... it's ok.
He's gone now.

He can't get you anymore.
I wont let him get you.

...sniff..

...sob.

For as long as I
live, I promise.

He will never touch you or
your sisters again.

Hey you feel that?

It's him... his touch...

It's Genji.
You like him.

Such a sweet boy.

So kind.

So gentle.

He'll take care of you.

He'll make a good father.

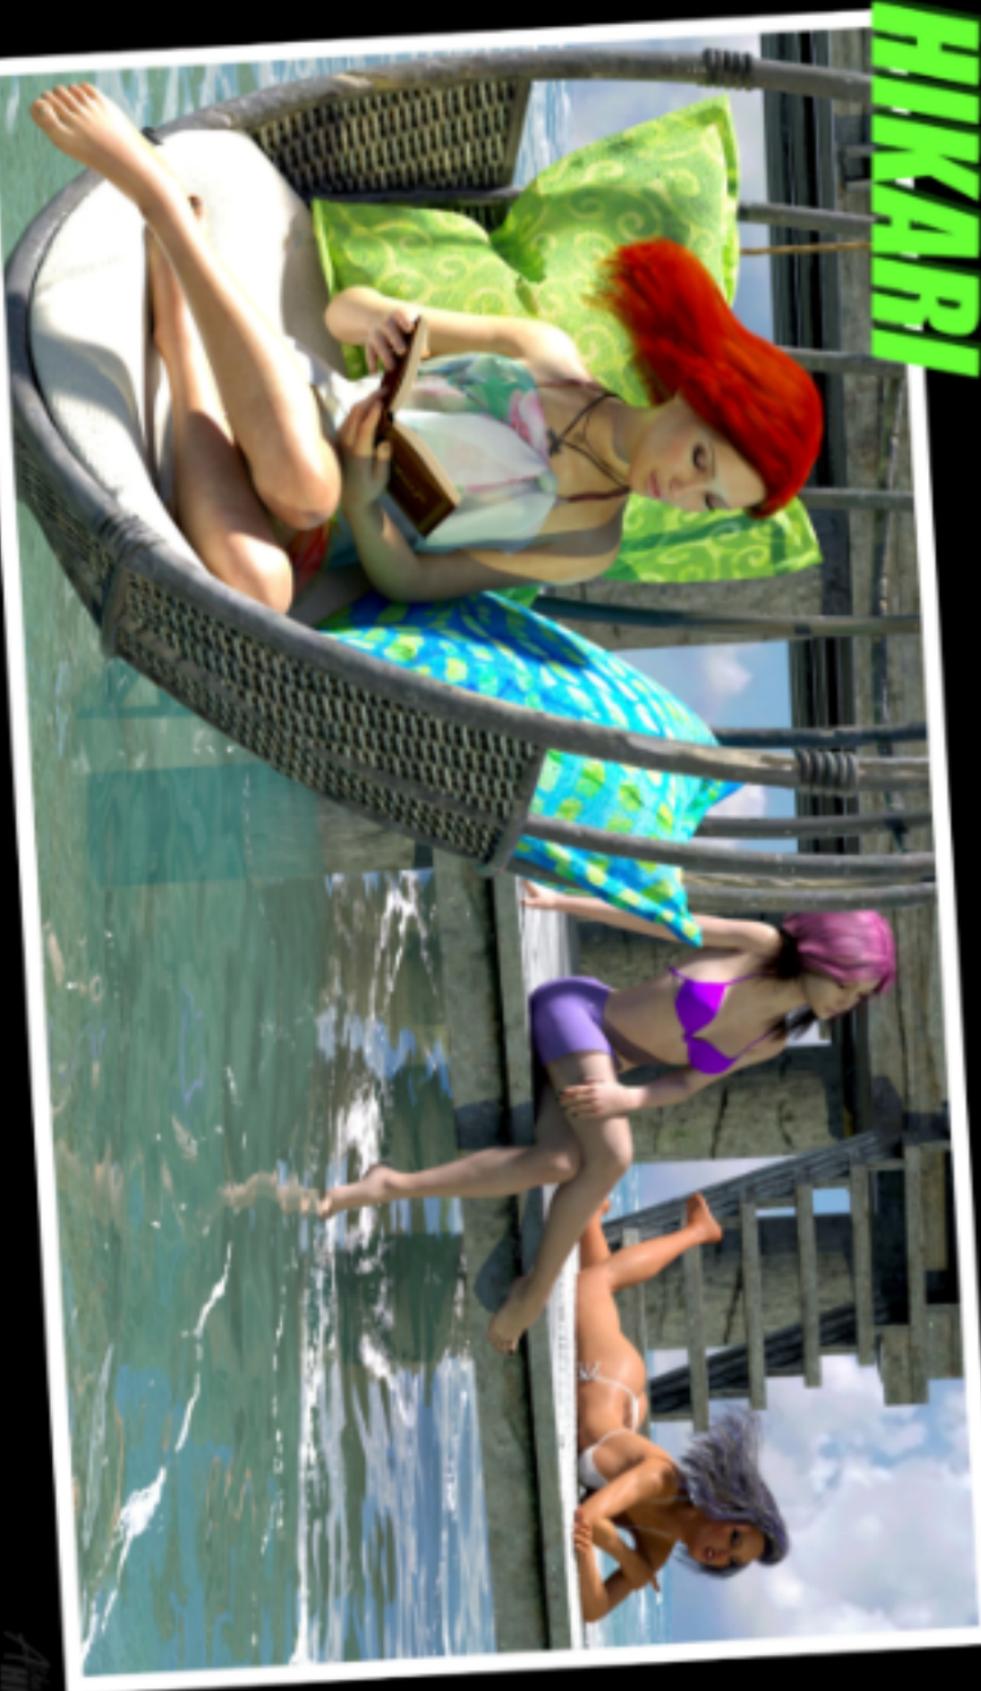

It will be ok Rhea-ka.

In the name of the light...

...all this carnage.

This must have been
hell made manifest...

Registering debris:
138 significant, 2,130,450 lesser,
65,451 distinct biological masses.
All non-functional.

Bodies? That's odd. The Loci
usually devour everything.

They would have.

I killed them all,
... but I was too slow.

Everyone died...

but me...

How did you survive this... this...?

I got lucky.

Lucky? You don't think that's a bit of understatement?

An entire
introduction fleet with
two full batallions of marines...
Obliterated.

I Watched
three other LIVs and
their Guardia die.

Fought them for hours...
Endless waves...

This is where...

...my master...

But you
did save Hikari?

I don't know who
this Hikari person is.

But...
there were these children.
It looked like the Loci were
abducting them.

Children?

Entering debris field now.
No power signatures detected.

How were the Loci
abducting children?
From the planet?

Why are you so obsessed
with this girl?

I told you before, I think
she can save alot of lives.

Very noble of you.
But I don't buy it.

What is she to you?
Really?

It's... complicated.

Let us start with this.
While you were on vacation
the Parliamentary Galactic
Electoracy was *destroyed*.

Destroyed?
The Senate?

No. Nearly all of it.
Only about a dozen of the ten
thousand worlds survived.

No. The Guardia wouldn't have let that happen!

The Guardia... the Guardia are...

Umm...

She's telling the truth...

Hello sleeping beauty.

Can you not leave me alone with her please?

All of it gone?! Quadrillions of lives...
What happen?! War?! Another Burn?!

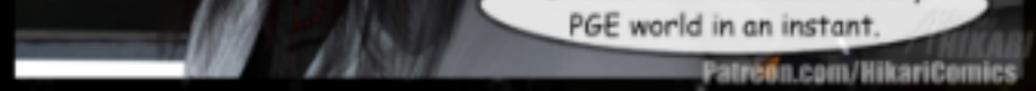

The Loci did it.

No. They couldn't have. It would have taken 500 years for them to spread that far!

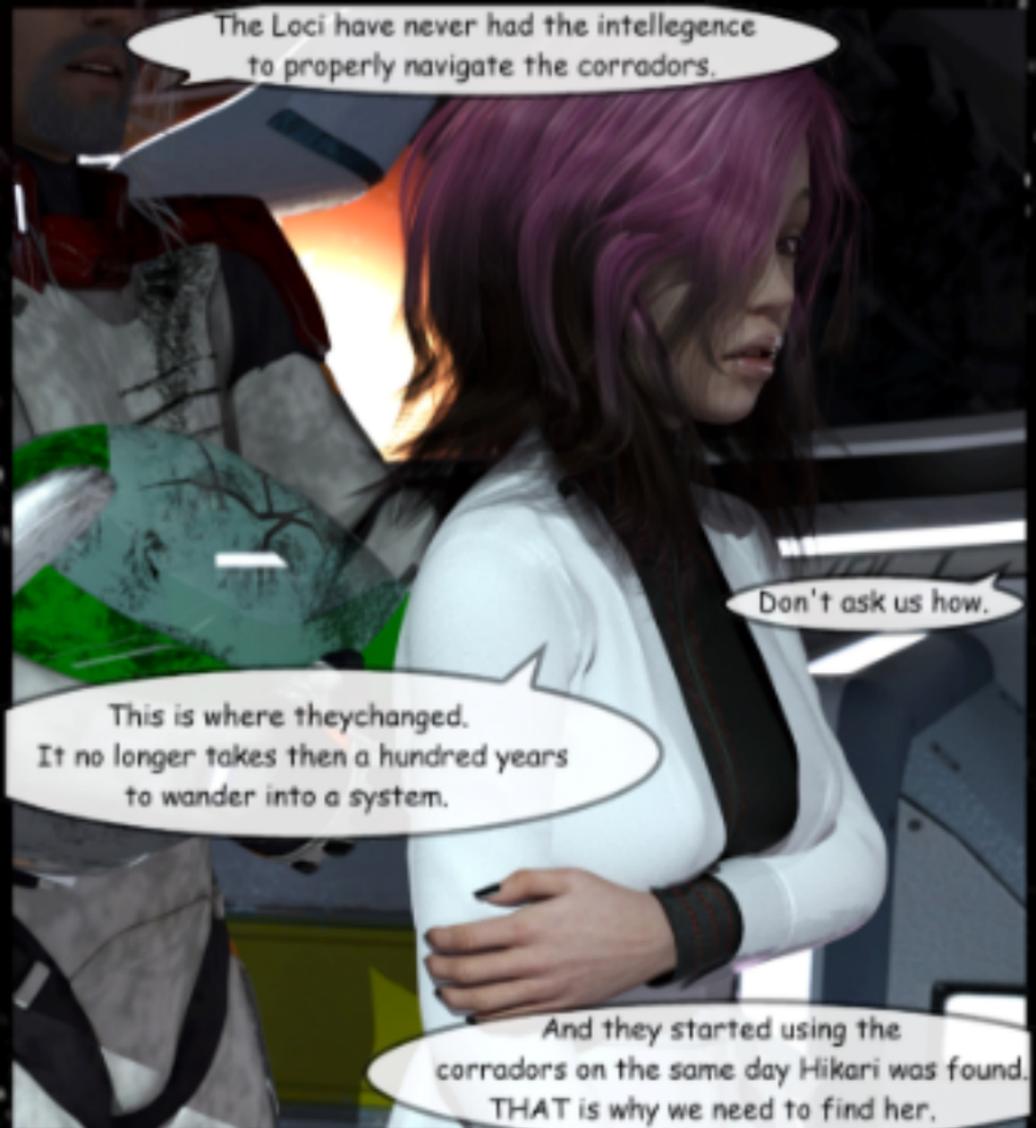

Took more like 5 years.
And it started here.

They followed us through the Null Burst Corridors.

Drones were on almost every PGE world in an instant.

The Loci have never had the intelligence to properly navigate the corridors.

Don't ask us how.

This is where they changed. It no longer takes then a hundred years to wander into a system.

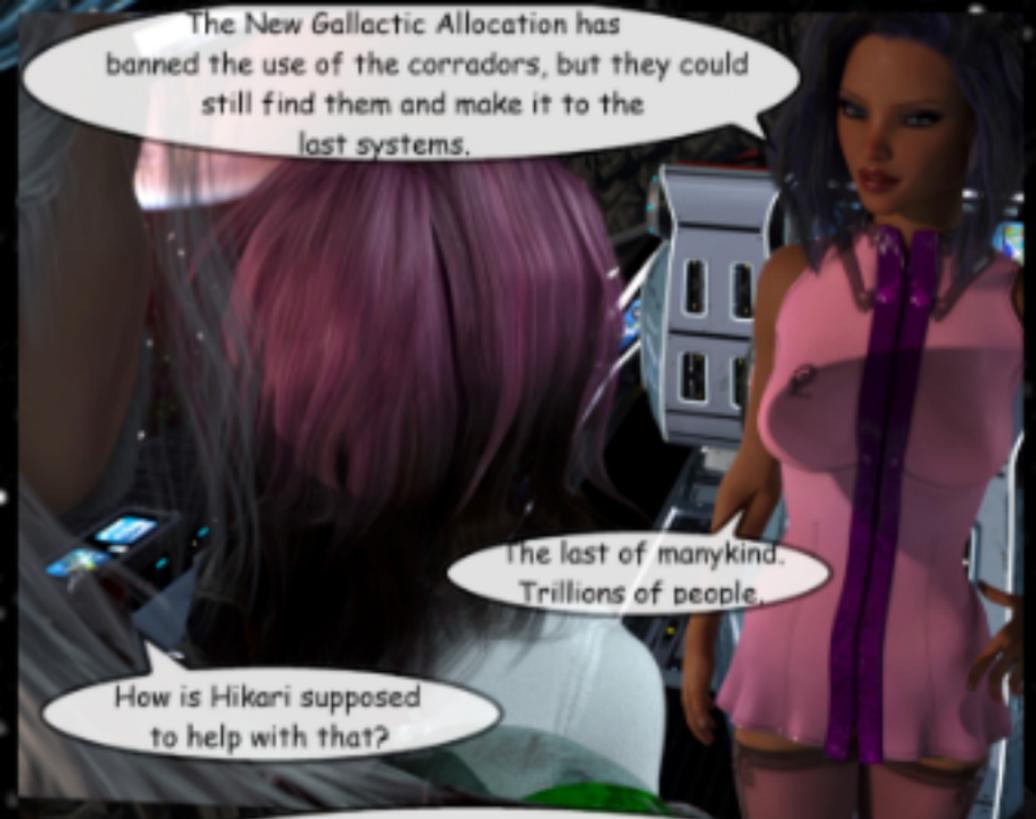

And they started using the corridors on the same day Hikari was found. THAT is why we need to find her.

It doesn't matter anymore.

Of course it matters!

The New Galactic Allocation has banned the use of the corridors, but they could still find them and make it to the last systems.

The last of manykind.
Trillions of people.

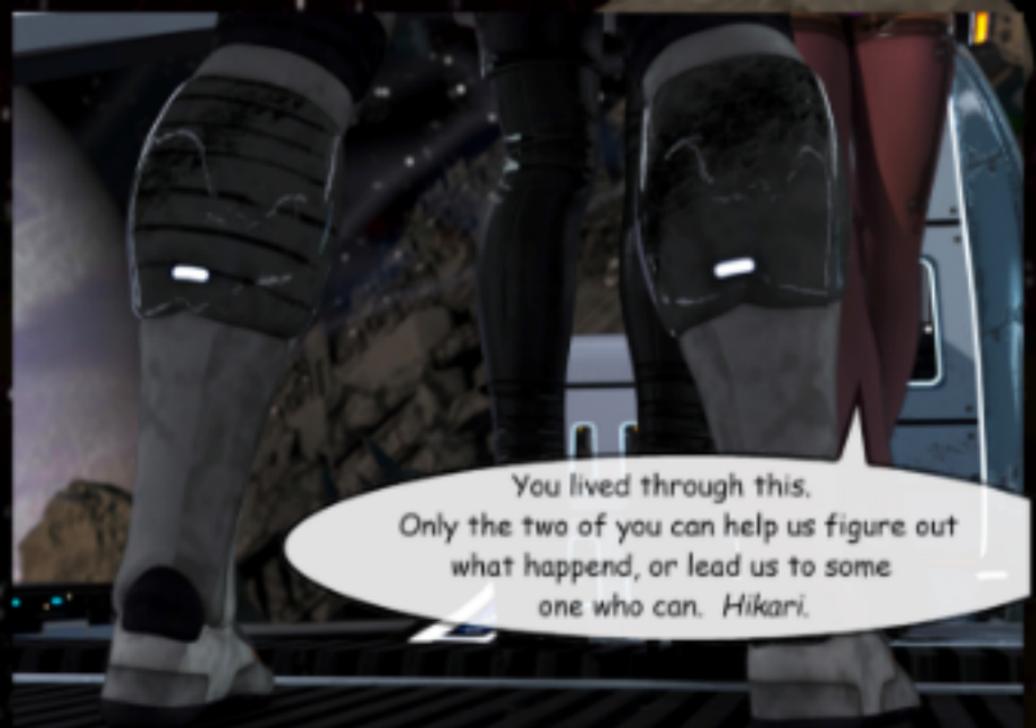

How is Hikari supposed to help with that?

We couldn't say. Unless the two of you know how the Loci were changed?

No.
And I'm still going to kill you.

Calm down.

Our family has resources, including experts on Loci biology.

You lived through this.
Only the two of you can help us figure out
what happened, or lead us to some
one who can. *Hikari.*

Detecting power signatures in the debris field.
Wave form matches that of known pirates.

Company.

Well there we go.

You should prepare
a surrender.

You'll have to drop me quickly and move into a defensive posture.

We will not have the time to dock and let you off.

Lady Sasayaki, ever heard of the Whiplash?

Stupid as ever...

Whiplash?

Your gonna get yourself killed....

Yeah! Head strait for the keel of the wreck, then blow the cargo deck and pull a hard 90 deg on the Z axis.

With you falling out the rear hatch...?

It'll be fun!

Ummm...

You sure? Your not in the best of shape

Lil Ms. Emo-kid of the year has a point. Your just a burntout old bag of history without your Vector.

If he dies,
I get to kill you.

Is he going to be
able to do that?

Slowly.

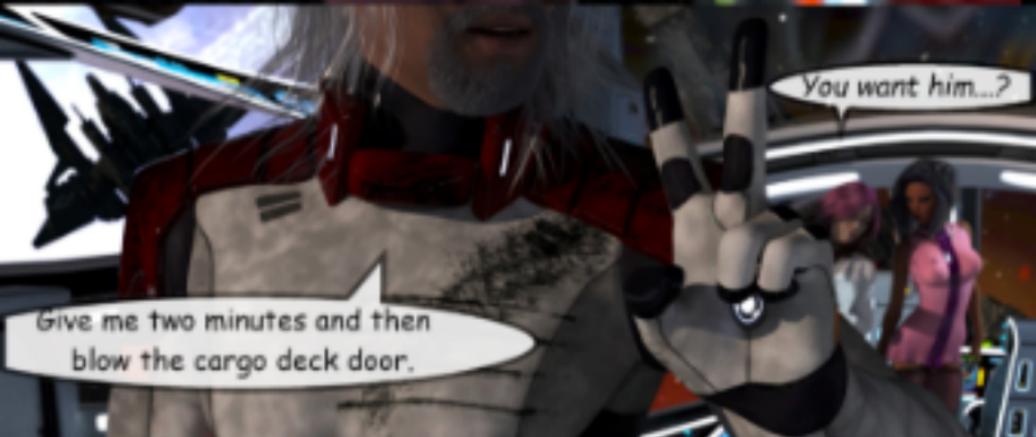

Can we not be friends?

Chosinsie bitch...
Wait... Why are you being
so friendly with him...?

Please don't kill each other while I'm gone.

It's been nice having some one to talk with. I'd hate to have to see the two of you being not loud.

You want him...?

Give me two minutes and then blow the cargo deck door.

Your gonna die bitch.

Uuuuuh!

??????

People do not often go near the *Guardias Vector* machines alone, and never at night. Rumor and whisper fuel urban legend that the soul of a young woman is trapped within each colossal woman shaped machine.

Appearing when no one is watching to cause misfortune for anyone getting close without permission, the woman never speaks and vanishes like a cloud of dust. Regardless, the stray observer will sometimes feel as if they are being watched... by something.

Get her ready while I pull up the transport.

This way Hikari!

I don't understand!

They'll be on us again any moment!

I don't have time to pack my things? What about my bears?

I'm sorry sweetie. I need you to help your mother.

I hoped we'd never need these again. Put this on Hikari!

Mom? What is this thing?
Some kind of spaceman suit?

Yes, it's a spaceman suit.
Your father made this just for you baby.

It feels kinda itchy...

It'll be fine, now get dressed.

Your going to be fine, and this spaceman suit is going to help keep it that way. Ok?

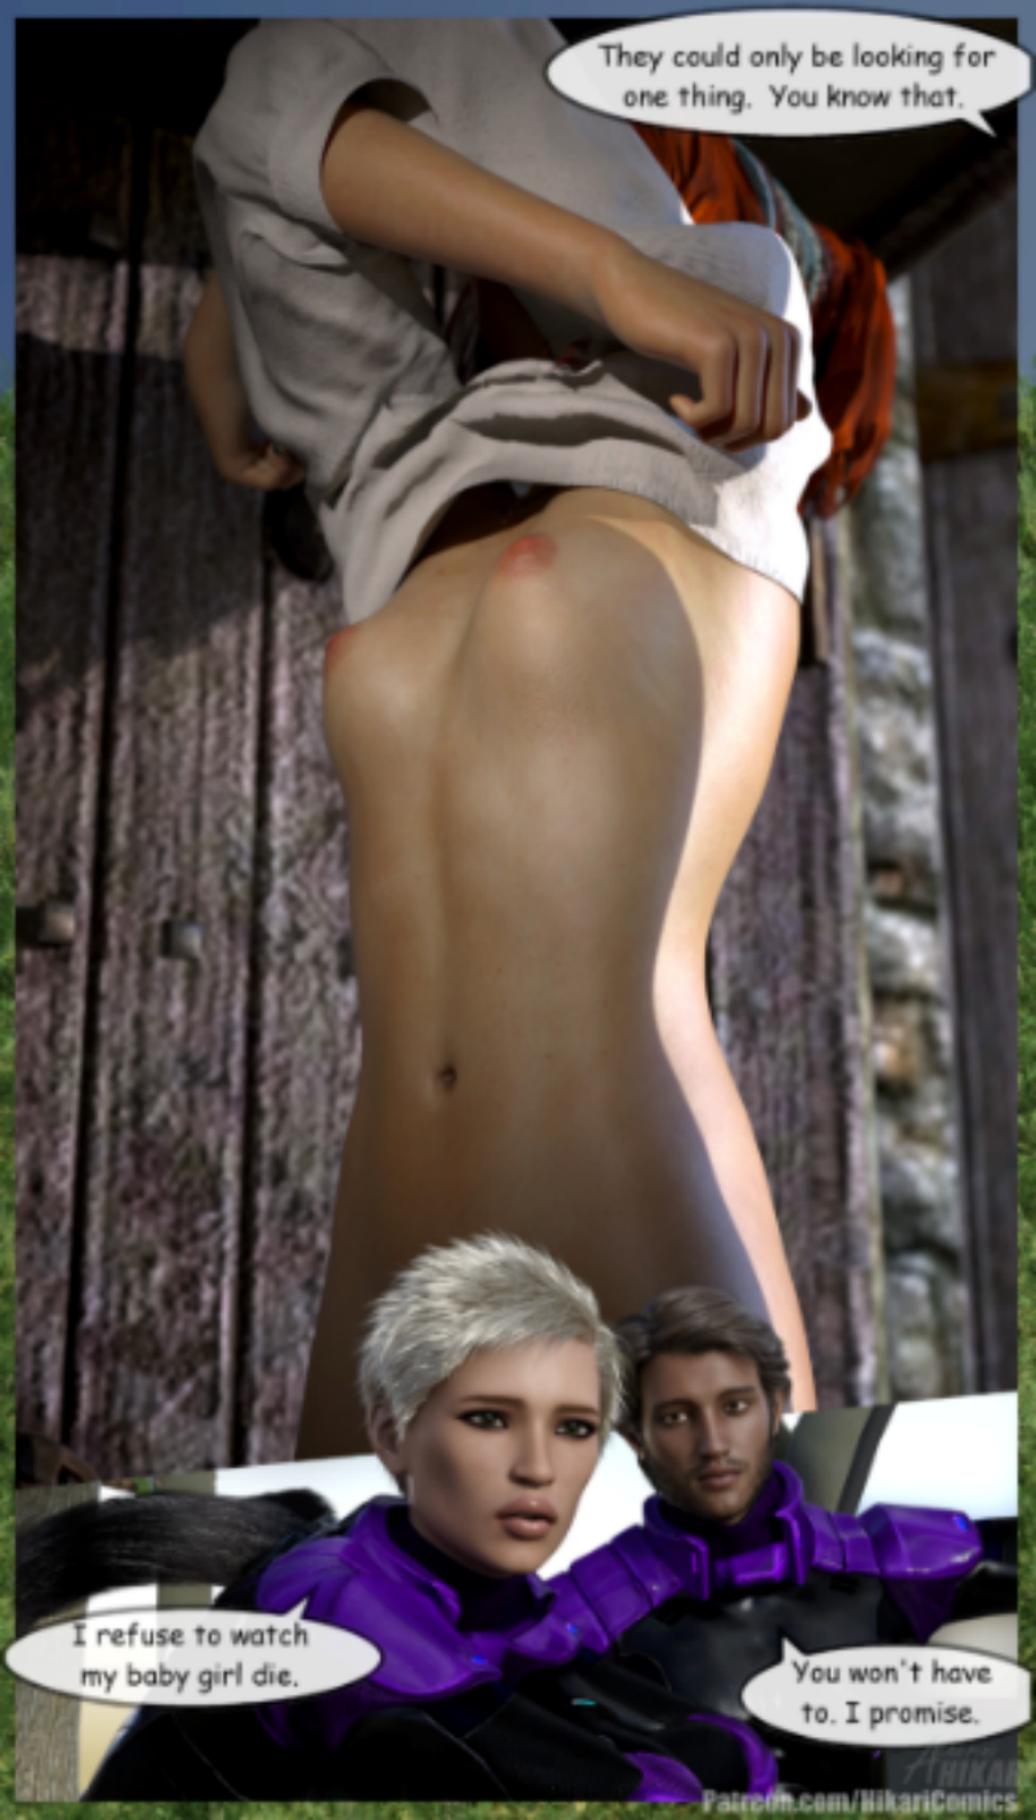

Ok...

You see that?

Yes... they're not feeding.

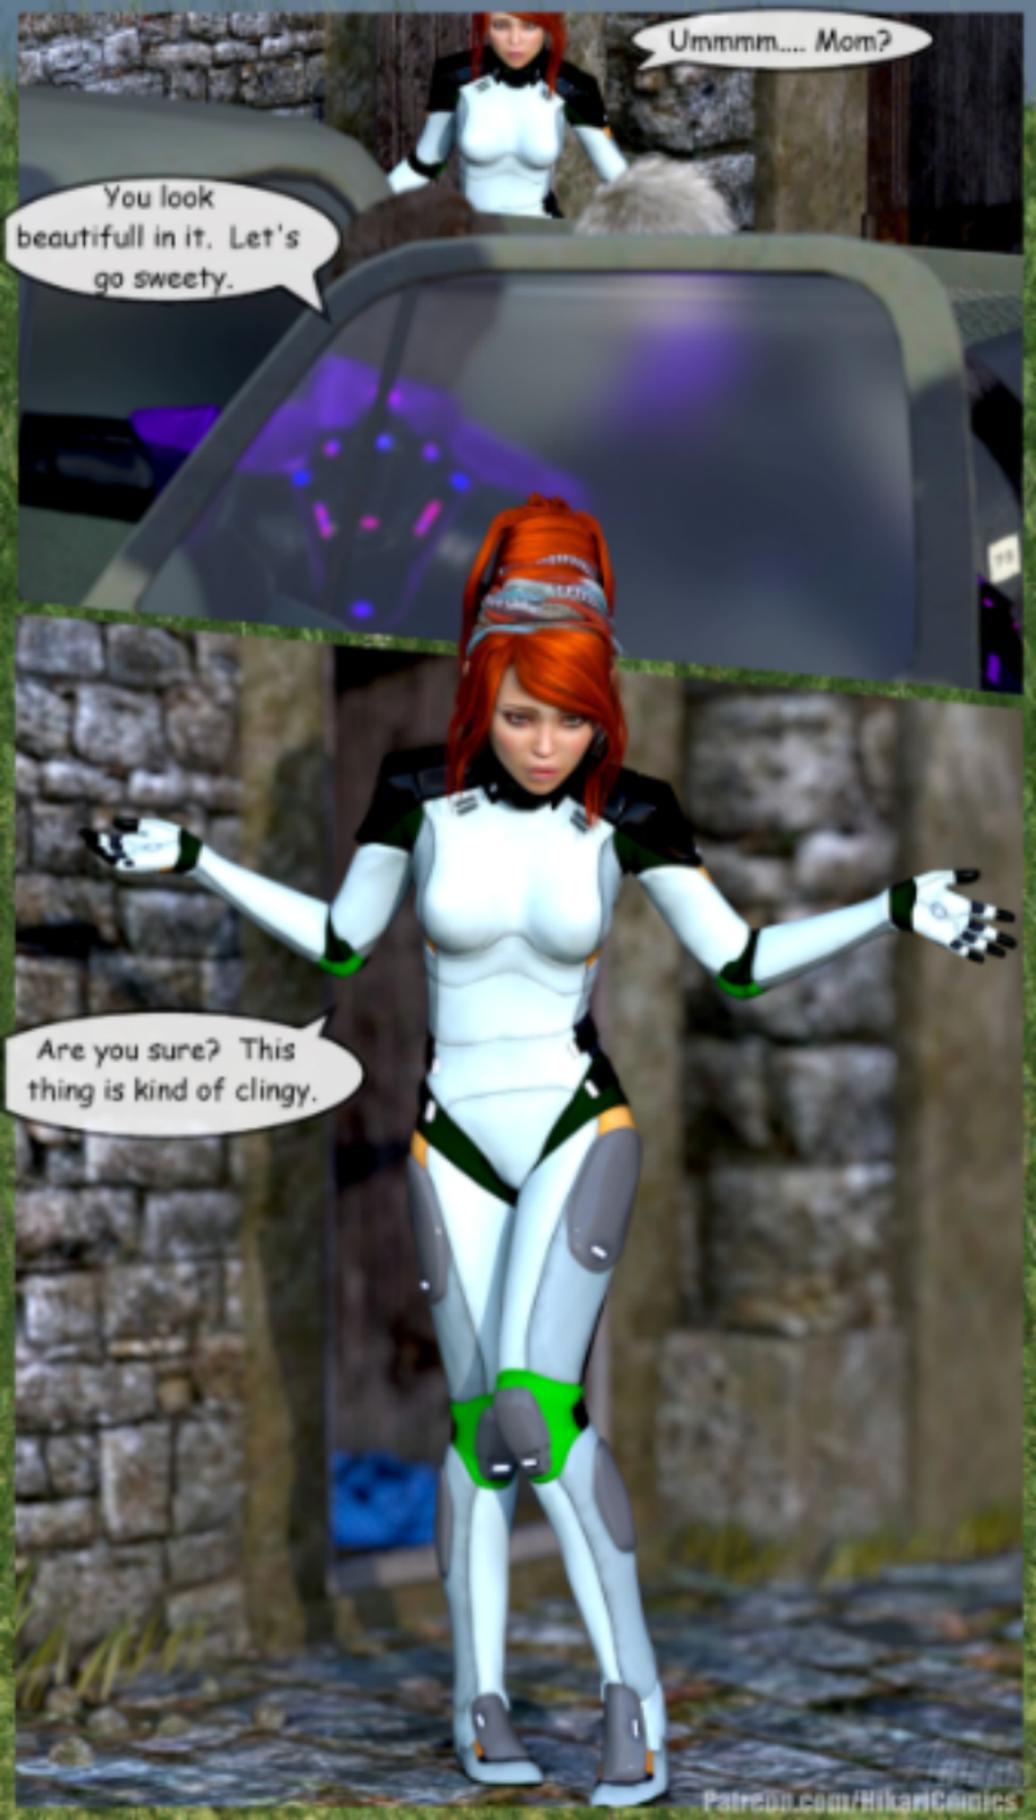

Looks like the drones are running a search grid.

They could only be looking for one thing. You know that.

I refuse to watch my baby girl die.

You won't have to, I promise.

Ummm... Mom?

You look beautiful in it. Let's go sweetie.

Are you sure? This thing is kind of clingy.

Ok!

It fits fine baby.
Get in the transport.

I love you...

Hey do you
guys hear that?

Sounds like children playing...?

What's that baby?

Children...
What? ...!

Ummm... DADDY?!

HIKARI!!!

DADDY?!

Damn... they went
strait for her...

DADDY?!

Daddy don't die!!!

Don't worry sweet heart. It's
going to take alot more than a few
Loci shapped holes in the gut to
stop your dad.

Not dead yet. The suit will
hold me together until we
make it to the becon.

Ya sure?

What's the beacon?

Shouldn't we go to the elevator and evacuate with everyone else?

Hey help your dad out for a sec.

The beacon is something your father and I used to use all the time. It will send for help. Super quick.

Ok...

I think there probably woulda been room on the elevator for my bears though...

HaHa... cough! owww. haha

A scene from an anime-style comic. Two characters, a woman with brown hair and a woman with blonde hair, are in a futuristic, metallic environment. They are wearing shiny, form-fitting outfits. The woman on the left is in a red and black outfit, and the woman on the right is in a purple and black outfit. They are both wearing headbands with cat ears. They are leaning towards each other, appearing to be in a playful or flirtatious interaction. The background features metallic structures and glowing lights in red and purple.

You want him

You don't deny it?

Deny it?

What perverse sexual fantasy
are you pulling this from?!

No we do NOT want to make love to him!

Don't care.
You can't have him.

We thought
you hated him?!

I do.

He's an asshole.

Then what are you
so worried about?

Nothing.
But that doesn't mean I'm ok with
a cheep little whore getting her sexy
claws in him... find another man to
make your fuck toy.

Pirate units are
approaching my Lady.

ENOUGH?!
WE DO NOT WANT HIM!

You couldn't
handle him anyways.

What could we possibly want with that used up old bastard?

He's DISGUSTING!

YOU SUCKED HIS DICK!

You think sucking his dick was easy? That was for YOU!

I KNOW HOW GREAT HIS COCK CAN BE!

I WON'T HAVE IT! YOU CANT TAKE HIM WITH YOUR PERFECT SKIN, EPIC TITS, AND SEXY ASS!!!

Contact with hostiles in 90 seconds.

We will thank you
to mind your own business
sir Guardia!

Noooo it's fine.
We were just... bonding.

... bonding huh?

damnit all...

What would you do master...?
You were always the best at
making people love each other...

He sound a bit sad to you?

...sigh
This really isn't what I
thought my life would
be like.

His heart is breaking...

Hmmm...

You know, he was trying to wake you up on his own for three hours.

Over and over...
Until he could barely stand.

He just kept grinding away at you.

We've never seen so...
much... shame, made manifest...

If it wasn't so overwhelmingly gross...
it might have been sweet... in a way.

...oh... really?
Maybe that's...

why I was...

so sore...

Hmmm...

...what are you looking at?

Maybe...

Maybe I will let him have you...

It would be a shame...

To waist such a taisty... soft...

...warm.
...body.

Ewwwww...
You're freaking us out.

They've probably
killed each other by now...
was it too much to ask?

Hey. Cut it out.

what...?

oh...

I should *make* him fuck you.

He'll fuck you hard.

With every virile
fiber in his body.

He does want you.
You know that?

But only for something
pretty to put his cock into.

And when it's time...
I'll hold you down myself, while your body
gives everything over to *him*.

We would break you.

Do you think you would enjoy that?
Ms. Princess?

Too give us your royal flower,
just before he fills you with his
sweet... sweet... life giving essence...

and your holier than thou...

perfect...

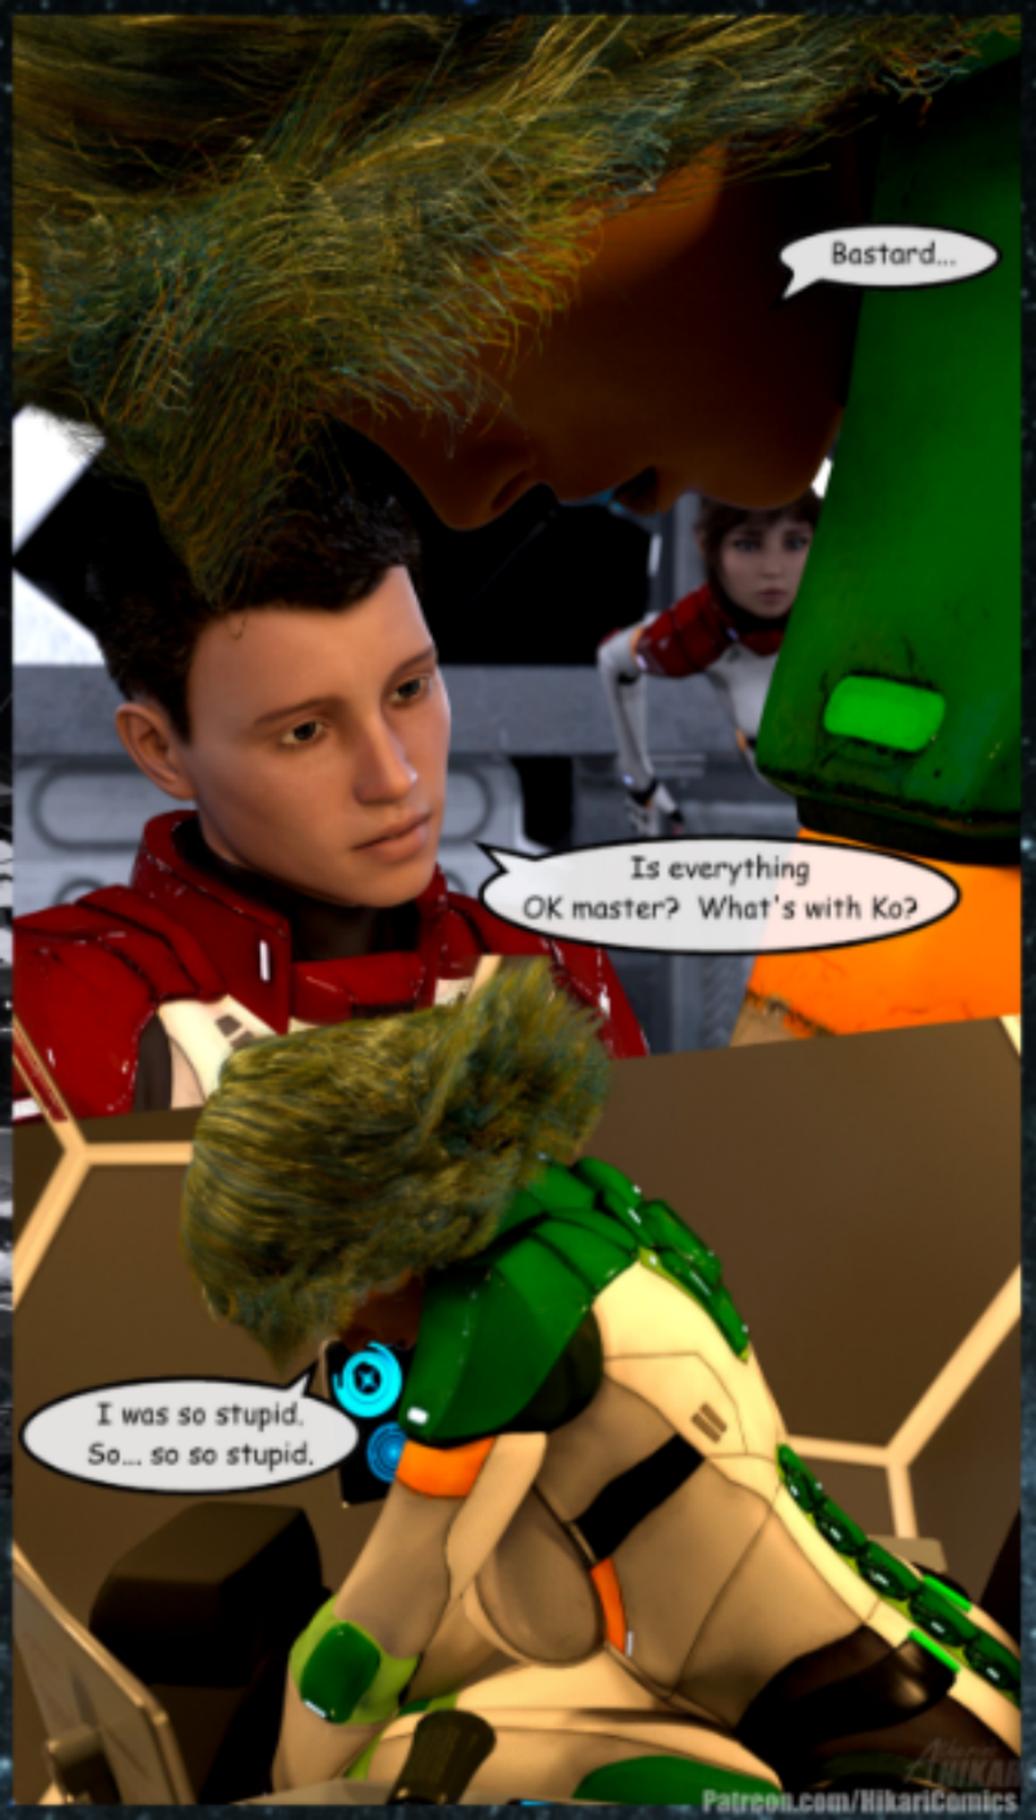

little princess body...

hardens to stone with him still
inside you, and crumbles to dust...

Hostiles are engaging.

HIKARI

Bastard...

Is everything
OK master? What's with Ko?

I was so stupid.
So... so so stupid.

Everything's fine Genji.
Strap in. We need to go.

I'm sure...

You sure?
Ko looked like he could
shank a nun.

Ko has to be my problem
to deal with ok?

Ooook...?

Genji. Listen closely.
One day, you'll have your own LiV.
You must never... let anyone inside
unless you are absolutly certain.

A woman wearing a red and white helmeted suit is shown in profile, looking towards the left. She is in a futuristic, brightly lit environment with various mechanical and structural elements. A speech bubble is positioned near her head.

Certain of what?

A close-up shot of the woman in the red and white helmet, looking upwards with a focused expression. A speech bubble is positioned near her mouth.

You'll know when it's time.

You'll know. Just don't let anyone inside you wouldn't want to stay inside.

Rhea has your back Aphrodite. Take point.

Vector forward.

Don't get in my way Genji.
I'd hate to have to explain to your girlfriend that
