A woman with long, straight purple hair and large, translucent purple wings is shown from the waist up. She is wearing a dark, form-fitting, futuristic outfit with metallic accents. She is holding a large, glowing green orb in her hands. The background is a dark, industrial-looking environment with blue and purple lighting. A speech bubble is positioned above her head.

A close-up shot of a hand holding the glowing green orb. The hand is wearing a dark, textured glove with a prominent, raised, claw-like or talon-like shape on the palm side. The lighting is dramatic, highlighting the texture of the glove and the glow of the orb.

Open it? Or listen to your lady

The woman with purple hair and wings is shown from the waist up, looking down at the glowing green orb she is holding. Her expression is somewhat neutral or contemplative. The background is the same industrial setting as in the previous panels.

have sooooo much fun...!

And afterwards... I think you might be fun to... play with.

It'll do you no good. LiV can only be flown by Guardia. She'd kill you.

Numbers Game

While senate members may have harems numbering in the hundreds, men with only a dozen or so wives can often leverage the political power that affords to award themselves with a *Captaincy of Meritocratic Naval ship*. This provides them with added leverage to increase the size of their harem while dealing with the remaining enclaves of Manykind.
