The first and only time I'd ever
flown her was the day my Xennin
master died. Blind pain and
desperation defined the tone of
those days... but now reconciliation?
It hadn't occurred to me that she
would be just as lonely as I had
been. A creature that amplifies the
touch of others yet could never be
touched herself... would she not be
immune to the very human condition
of *loneliness*? It would seem not...
but then there was fire. My lovely
companions had been left to fend of
the murderous pirates by
themselves for too long!

She was so beautiful, and
POWERFULL! The **ANGER!** I just
wanted to kill something...
ANYTHING!

Soareta

has never left New Eden. She's lived there all her life where all she needed know was how to dance and sing for her people.

Her father hung her on his shoulder opposite her mother like a delicate flower to be shown off at state events making other men jealous. Perhaps she'll find more purpose now that her world has joined so many others... ruined before endless waves of ravenous Loci.

Midori

She may be ancient by most of Manykinds standards, but Midori still craves the company of those hundreds of years her younger. An insight that hints at the idea that as Guardia grow older, their appetite for sexual deviancy may only increase.

There it goes.
Captains gonna be soooo

Damn it. There's no
way he surrrrvived that!

She may be adopted, but Hikari and her mom are so much alike. They are both big lovers of strawberries, sleeping late on a rainy day, and playing with puppies.

And no. It's not gonna happen.

...probably.

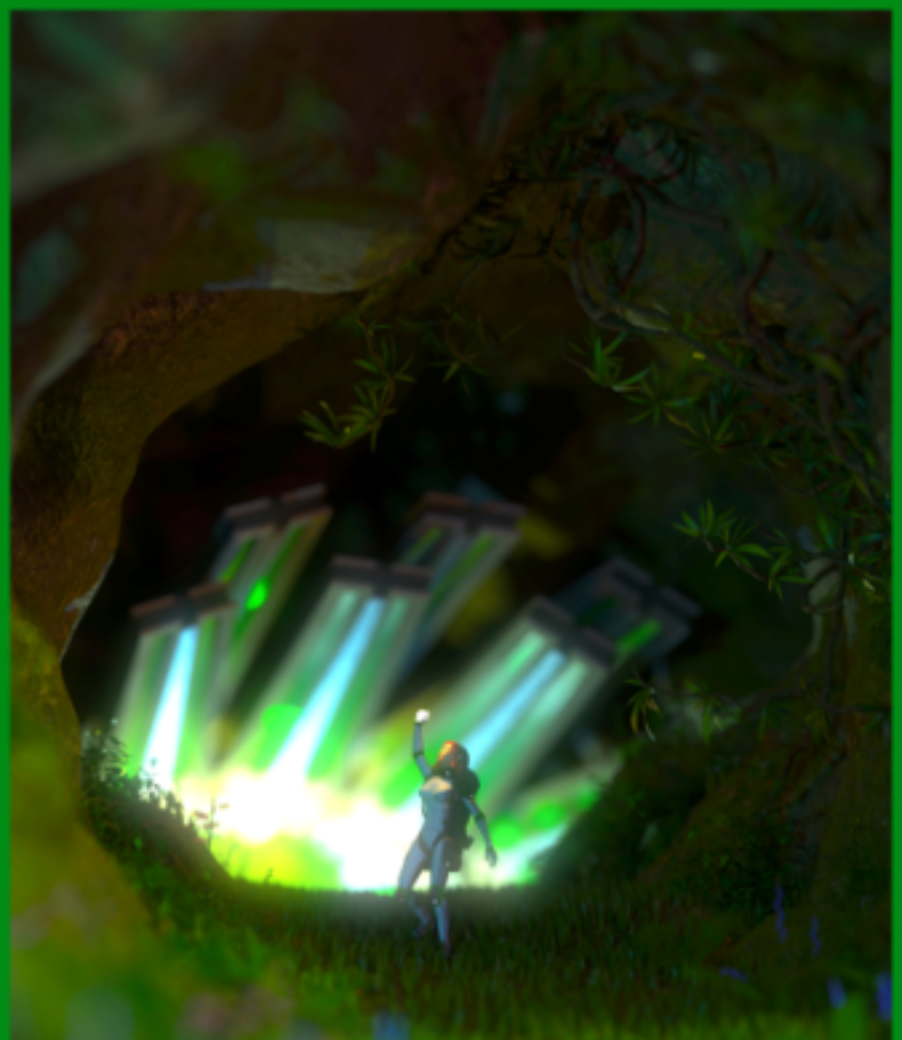

[Patreon.com/HikariComics](https://patreon.com/HikariComics)

Claire is the last of her kind, the Dragonel of Firth. Before the Loci slaughtered the ladies of Firth, they were highly honored for their ferocious loyalty and devotion to a master. They and many other peoples of Manykind were wiped out virtually overnight during the Great Loci Surge.

Professor is that wise?

Tsuki, Set a course
for New Eden.

New Eden? How
did you know...?

Interesting...

Save my Daughter! Save Hikari!

No way. She should be an old woman by now.

Who's to say. You should have been in the grave 100 years ago right?

The source was New Eden. How fast can we get there?

The burst corridor is our only option.

It would take months by NID.

Hey. Come with me will ya?

This the hate-sex thing?
Do we have time for that?

There is ALWAYS
time for sex. And I
really want you...

Pssssshhh...

The corridor gate is like two hours away right?

...ok.

Laides.

Uh...?

Hmmm...

Names Rojin.
Thank you for the ride.

Hey do I know you?
Something about your face...

I... I don't believe so.

No I swear...
You look familiar.

Oh no. I'd never
forget a pair of lovely young
ladies such as the two of you!

We've never met.

Ummm... what?

Pardon me ma'am. Officer
Rojin, SCP at your service.

I'd very much love to
hear about what could bring
such a beautiful woman all
the way out here!

Oh... what?!

Oh! Umm, ok... Hi!

Hey!

That's enough Casanova.

Cummon Sasa...

Does he have a
cute butt?

no...

Another time then.

Ok!

Maybe not.

I thought you said
you had a wife?

Lady Sasayaki is very...
particular about the people
she keeps company with.

I also said I hadn't
seen her in years.

Just being friendly. Speaking of which,
mind if you use your comms? I should check in,
and maybe call said wife.

...sigh
Go right ahead.

Kami please plot a course to the Burst Corridor.

Affirmative.
93 minutes at sublight.

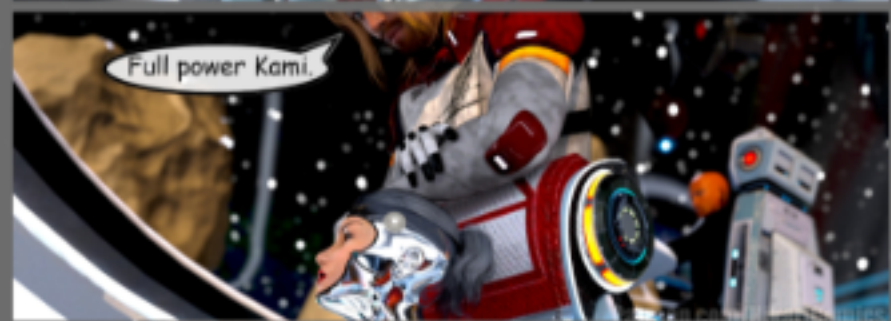

Burst Corridor travel? That was banned 60 years ago. If we're caught using one, we could be executed.

We don't have much of a choice.

New Eden appears to already be under attack. Using a corridor to go there now isn't going to put those people in any more danger.

Full power Kami.

The lovely Kawarenai, wife of 19
happy years to the Governor
Appoint of the colony of New Eden.
A true politicians wife, loved by her
people and adored by teen idols, she
has groomed her
daughter to
be the pop
culture princess
of the
Fractured Elf
people...
making herself
the undisputed
heart of the
culture.

And yes...
It's probably
gonna happen.

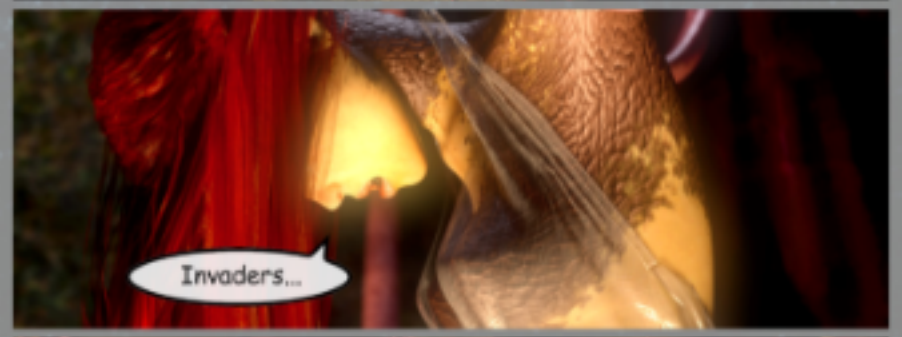

Zer is un signal ahead.

I don't like it. What's a hatch doing in a Loci?

And an atmosphere.

Invaders...

You hear that?

I did.

We are not alone.

Did the Loci just
...talk. To us?

Usurpers...

I've got a
bad feeling about

Now.

Wait!
We have jobs to do!

I'm not
leaving you here
with them.

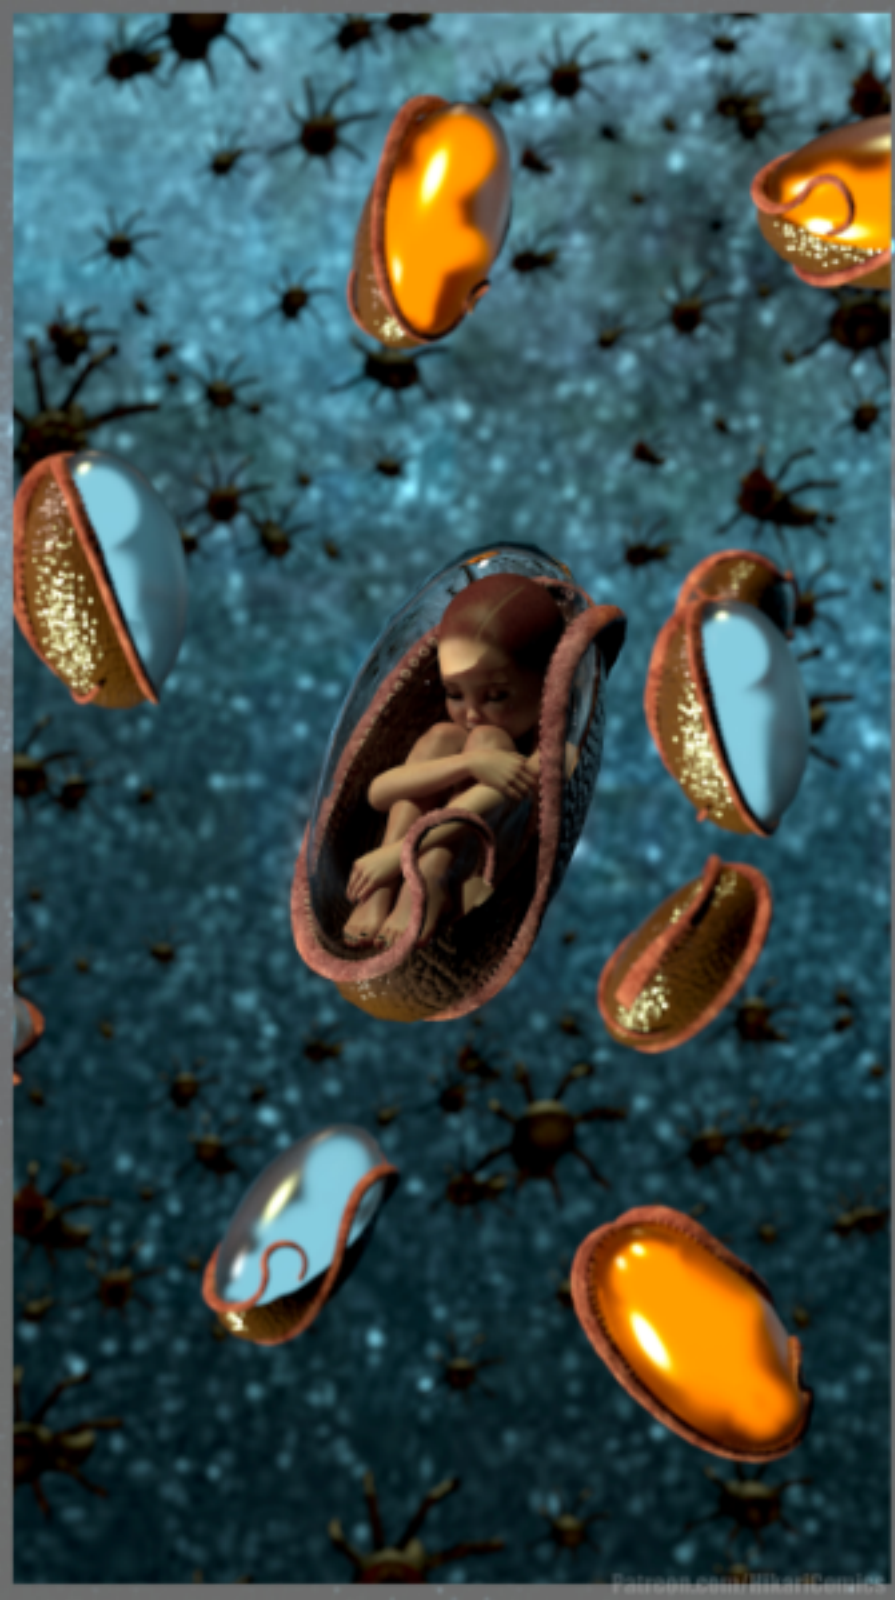

KO?!

You're not
a piece of MEAT to be
grinded upon. You're
my sister!

Put me down!

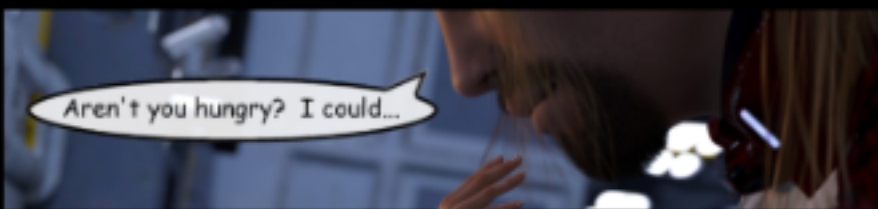

This is for
your own good.

The Loci swarms have been observed to act and move as if a larger intelligence was at work. Tactics employed display a priority of task over preservation of individual...

What did I do?

You sure about that?

He doesn't deserve us

He hasn't **EARNED** this.

nnnnnggcooh...!

Whatever...

...sigh

Yes Kami?

Observations indicate sexual frustration.

Understatement

One of the Kaminari units primary functions is to provide sexual release for its Masters.

Are you offering to..?

Affirmative.

A silver, humanoid robot stands in a futuristic, blue-lit hallway. The robot is wearing a black top and bottom piece. It is looking towards the camera.

Do you request sexual release Master?

A close-up shot of the robot's torso. The robot is holding a small, glowing object in its hands. The word "POPI" is visible on the robot's chest and on a panel in the background.

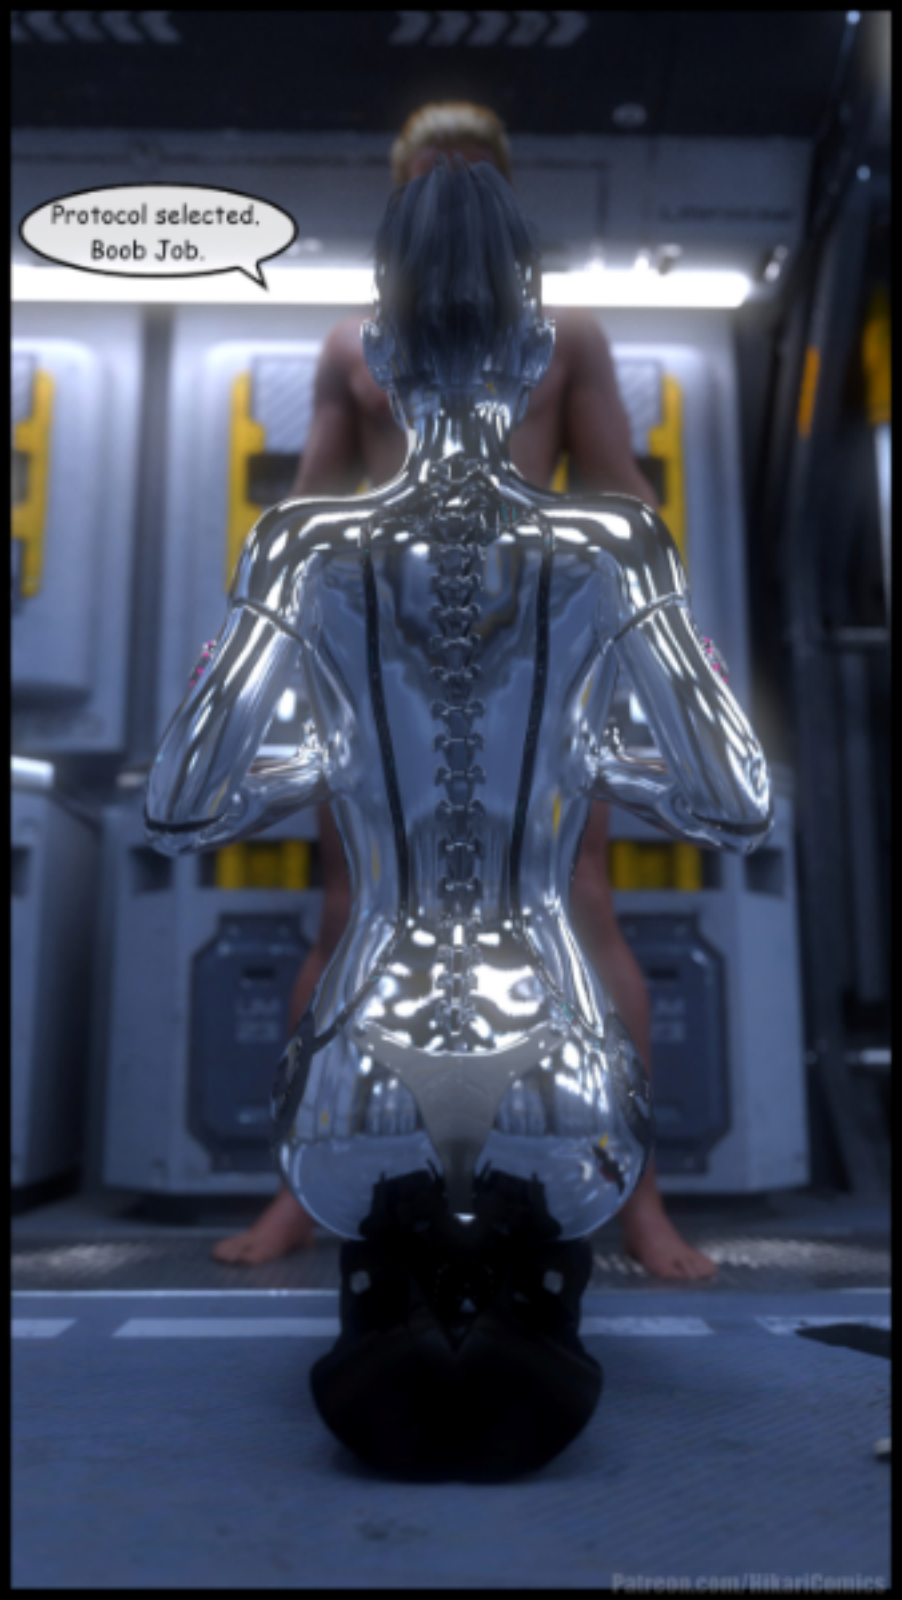

POPI

A man with long blonde hair is seen from the back, looking at the silver robot. The robot is standing in the same futuristic hallway. The man's hand is near the robot's hand.

Uh... OK?

The silver robot is speaking to the man. The robot's mouth is open, and it is holding the small glowing object. A speech bubble is next to the robot.

Confirmed.
Mana storage cells
are... thirsty.

Protocol selected.
Boob Job.

Wait... if your giving
me a boob job...

Who's flying the ship?

This unit is
networked with the
ships systems.

Kaminari is flying.

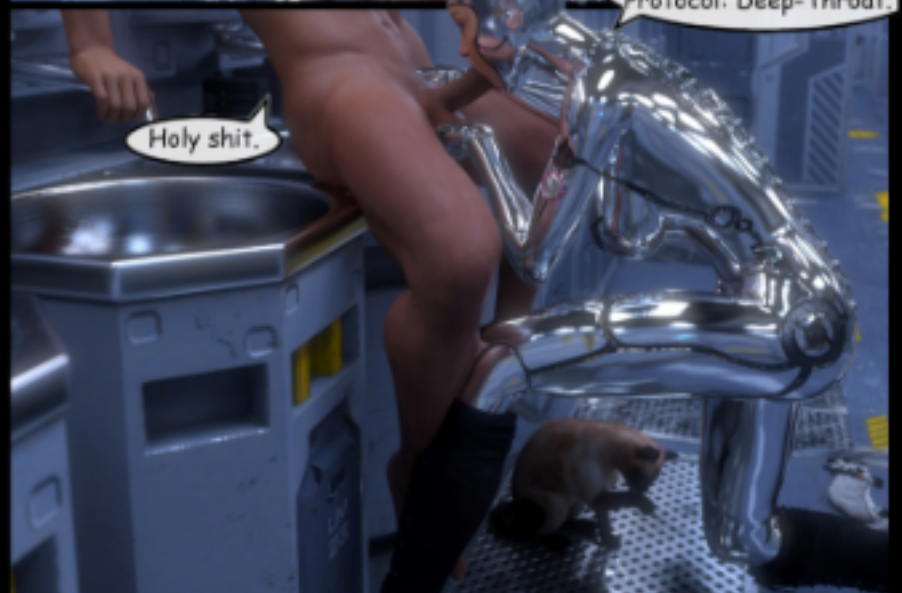

Tutorial Prompt:
Insert Penis to activate
pleasure.

Tier two arousal detected.

Auto-transitioning.
Protocol: Deep-Throat.

Holy shit.

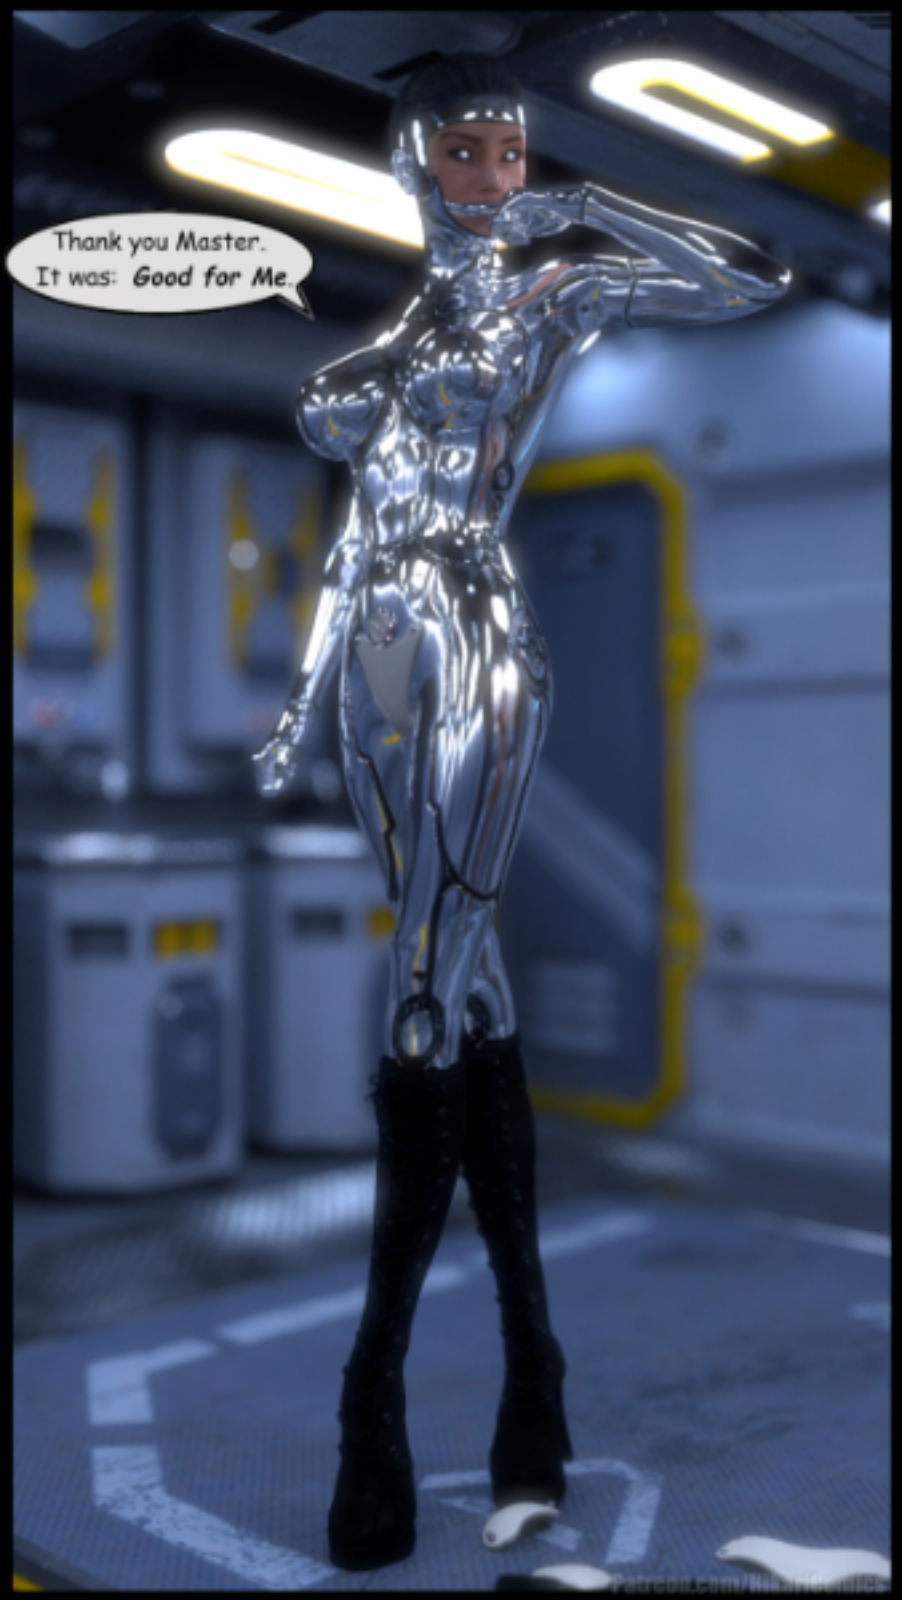

Master, this unit requests
to inform you that you are
making it "Soaking Wet".

Error. Detecting primary storage failure.

Corrosive...
Kami are you ok?
That could eat through
the hull of a cruiser.

Emergency
storage protocols active.
Backups holding at 89%.
Mana contained.

A female android character with a highly detailed, metallic silver body that shows muscle definition. She has a human-like face with dark hair and eyes. She is wearing black, thigh-high boots. She is standing in a futuristic, industrial environment with blue and yellow lighting. Her right hand is raised to her forehead in a gesture of surprise or contemplation. A speech bubble is positioned to her left.

Thank you Master.
It was: *Good for Me.*

Your just gonna walk
around full of jizz?

You would have
Ms. Tsuki walks around
"Full of your Jizz"
would you not?

Oh! Speaking of Tsuki.

Could you please?

She's... angry with me.

Request... acknowledged.

Has it always
glowed like that?

Mana enriched
fluids often produce
strong illumination.

I've never actually seen it...

...mmmmnuuuh

Melodie is the Aquilla's weapons officer.

She lost her family and found her way onboard much the same way most of her crewmates did, Capt Krish exploiting the fallout from the Great Loci Surge to coerce her into his captain's bed.

While trillions died, her people, the Neko, still make up a significant number of the surviving members of the Meritocracy.
