

# Lust and Scene Generators

Taken from the full manual for Warlock and boobs v 0.440

Repeated daily increases and decreases in lust (such as sex scenes). This excludes one-time scenes during quests, winning or losing against enemies, as well as scenes during hunts or adventures (as they are random).

Events tied to a specific day and/or time can usually only happen once a day, e.g., you can only masturbate to a painting once. All flirtation options have relationship terms. All voyeuristic scenes only ask you if you want to masturbate if your lust is high enough.

In version 0.410 icons indicating the time of day have been added
